

## Decorations

All decorations are allowed for the Memorial Day recognition and will be left for no more than five (5) days, at which time the employees will remove all items for mowing purposes.

- Since so many of the flowers are expensive, we suggest that families remove the decorations before the five day limit and save them for future use.
- Another popular way of decorating for Memorial Day is by purchasing live potted flower arrangements and taking them home after the desired time so they may be enjoyed throughout the rest of the summer. Many local florists and yard and garden businesses around this area make these arrangements up for this purpose

Flowers and decorations used in conjunction with funerals of current interments are left on the graves for at least a week or until the fresh flowers become unsightly.

Christmas Wreaths are removed any time after March 1 as weather permits.
